Welcome to the Division of Behavioral Health's

Provider Hub

This hub is for workforce development resources including trainings sponsored by the Department of Social Services (DSS), Division of Behavioral Health (DBH). Please note this page is **exclusively for agencies contracted** by the Department of Social Services, Division of Behavioral Health. If you are unsure if your agency is contracted, please check with your supervisor or view a list at open.sd.gov/contracts.aspx by selecting "SOCIAL SERVICES (08)" for the department. You may also email SD.BehavioralHealthCareers@state.sd.us.

Trainings

Who can register?

Training prerequisites are listed in the training registration form. Specific contracted providers may be given priority based on the specific services they are contracted for. Additional providers may be considered dependent on the demand from qualifying agencies. Registrants must be available to attend the entire training with no planned absences and in-person when applicable.

How will I find out when registration opens if it's not posted?

Training details and registration information is updated on the website as it becomes available. Additionally, announcement emails are sent to our listservs which include agency leadership. Agency leadership shares this information with their staff as appropriate.

What is the cost of training?

Trainings posted on the Provider Hub are available at no cost for contracted providers that meet the prerequisites. Travel expenses such as lodging, food, and gas are the responsibility of the agency.

Why is the registration link not working?

The training may be at capacity causing the form to close. You may email DSSQATraining@state.sd.us to be added to the waitlist.

How do I cancel my registration?

Please email DSSQATraining@state.sd.us as soon as possible to allow time for a waitlisted participant to register.
