Supported Housing for Addiction Recovery Empowerment (SHARE)

What is supported housing?

The Supported Housing for Addiction Recovery and Empowerment (SHARE) program provides safe, stable, recovery-oriented housing paired with flexible, individualized support services. It is a community-based housing model where individuals live in a real-world environment while receiving voluntary support tailored to their goals. Services may include case management, peer support, connection to treatment, employment assistance, and life skills development. The focus of SHARE is on long-term stability, increased independence, and sustained recovery. Individuals are supported in managing their own lives, strengthening skills, and building meaningful connections in the community so that recovery can be maintained beyond formal services.

Who is eligible?

Men and women 18 and older with a substance use disorder or experiencing issues related to substance use. This may include those with a co-occurring mental illness who due to their challenges, are unable to live independently without additional supports. Some providers may accept adults with children as noted on the reverse page.

How do I apply?

By contacting one of the providers listed on the back of this page. Admission requirements vary between providers.

How can I afford this?

Assistance is available for those who have been determined eligible through the Division of Behavioral Health's financial eligibility process. Please visit with the supported housing provider about this process.

Providers
