- South Dakota DSS - DSS.sd.gov/BehavioralHealth/AgencyCounty.aspx

Financial assistance is available. Contact a treatment provider in your area for more information.

Substance Use Disorder Treatment Services

The Division of Behavioral Health contracts with substance use disorder agencies across the state to provide quality services for both adults and youth. These services include screenings and assessments, early interventions, withdrawal management, outpatient, and inpatient treatment. Financial assistance is available for these services.

Outpatient Treatment Services

Outpatient treatment services offer counseling to individuals diagnosed with substance use disorders. Additionally, early intervention services are available on an outpatient basis for those who have concerns about their substance use but do not have a diagnosed disorder. These services can also be delivered via telehealth.

Low Intensity Residential Treatment Services

Low-intensity residential treatment services provide peer-oriented programs for individuals with substance use disorders whose living situation or recovery environment is not conducive to recovery. The program offers substance use disorder counseling along with case management services to prepare clients for successful community living.

Inpatient Treatment Services

Inpatient treatment services provide residential care with medically monitored intensive treatment for individuals with severe substance use disorders.

Detoxification/Withdrawal Management Services

Detoxification/withdrawal management services are residential programs with trained staff providing 24-hour supervision, observation, and support for individuals who are intoxicated or experiencing withdrawal symptoms. The staff aims to engage individuals in further treatment services after stabilizing withdrawal symptoms.

Specialized Treatment Services

Specialized treatment services are available for pregnant women, women with dependent children, and individuals in need of intensive methamphetamine treatment.

How do I find help?

1. Contact a local treatment provider
2. A professional completes an assessment
3. Recommendations for services and/or supports will be provided
